| • The immunisation status certificate can be obtained from the local municipal council, Australian Childhood Immunisation Register or General Practitioner.  
• take a copy of the sighted document and record information on the immunisation status of each enrolled child. |

Note: Parents or guardians must provide an immunisation status certificate to the school regardless of whether the child is or is not immunised. Homeopathic immunisation is not a recognised form of immunisation, and therefore cannot be listed on an immunisation status certificate.

Prospective students will not be prevented from enrolling in primary school if they have not been immunised.

Collecting immunisation status certificates will assist health authorities in protecting students in the event of a vaccine-preventable disease occurrence at the school. An unvaccinated student may be excluded from school for a period of time. Parents or guardians of secondary student applicants are not required to provide an immunisation status certificate.

Incomplete admission information

This table outlines the principal’s options when admission information is incomplete.

The principal may

defer admission of a student for up to 5 days

conditionally enrol the student:

• if the information is not provided after 5 days and
• further delay in enrolling the student is likely to affect the student’s education and wellbeing.

provided that the principal

• requests that the enrolling parent or guardian provide the missing information
• advises the parent or guardian they are legally responsible for ensuring a child of school age attends school.

• records the enrolment conditions; and
• advises the parents or guardians in writing that the enrolment is conditional upon providing the missing information and will only be formally completed when these conditions are met.

Evaluation:

• This policy will be reviewed as part of the school’s three-year review cycle.
